

Statement on Recent Actions By Retailers Regarding Lorex Technology

10/26/2021

Dahua Technology is aware of the decision by certain retail partners to discontinue their relationship with Lorex. Dahua emphatically supports and stands by the statements made by Lorex that these actions were 'unwarranted and unnecessary'. As we have said in the past, Dahua flatly denies the allegations upon which our inclusion on the Entity List was based. We reaffirm what we have consistently and publicly stated: Dahua does not and never has posed any threat to US national security interests, and Dahua has not been involved directly or indirectly in promoting human rights violations in any country in which we operate.

We know of no evidence that has been made public which refutes our commitments in this regard.

Zhejiang Dahua Technology Co., Ltd.
